

Mushfiqur Rahman Sakib

I love living an active and outdoorsy lifestyle. I'm an extroverted introvert who loves enjoying life to the fullest while maintaining strong family values and ethics. Some of the things I enjoy includes travelling, bouldering, hiking, reading, sports, music, road trips, etc. I also really love spending time with people close to me. Physical and mental health is important to me, and I strive to become a better version of me every day. I'm looking for a smart and witty individual as a partner. Someone independent, with emotional intelligence, is passionate about what they do.
